"What You Should Know About Your City"

The helpful kind of patriotism is the kind that grows out of a knowledge of one's town, of her growth, her people, her property, her government and her needs This knowledge develops, first, an intelligent interest, then, a sympathy, then, a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow more beautiful, and finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women — John Cotton Dana

I AM

I sit in the castles of business and at the hearthstones of many homes, mighty in my power to serve.

Through me is the power to make people talk with intelligence concerning their communities.

With extended hand I guide the wearied traveler, and to others shorten the distances between destinations.

In me abides the essence of democracy, as side by side is found all nationalities, rich and poor alike.

With uncanny certainty I unite long-lost friends and make glad the missing heirs.

Through me are protected the law-abiding by tracing the criminal to his hiding place.

Through me, in the friendliest way, new trade channels are opened.

I am the key that unlocks the gate to what your community is, for all who would pass its portals.
